

## Appendix 1

### **Expenditure on individual candidates at the general election to the 29th Dáil.**

#### **The following should be noted:**

- Candidates are listed alphabetically.
- The candidate's name, political party (if any) and constituency are contained in column 1.
- The number of seats in the constituency is entered in brackets after the constituency.
- The expenditure limits applying to candidates at the election were as follows:

Three seat constituency - €25,394.76

Four seat constituency - €31,743.45

Five seat constituency - €38,092.14

As well as other expenditure, the limits took account of the commercial price of property, goods or services, received free or below cost, which were used at the election.

- A candidate of a political party was entitled to assign to the party any portion, up to 100%, of his or her expenditure limit. If an assignment was made, the amount available for expenditure by the election agent of the candidate concerned was reduced accordingly.
- There were no separate expenditure limits for parties. The only expenditure permitted at the election by the national agent of a political party was the total amount assigned to the party by its candidates. Expenditure by the national agent was on the party's national campaign or on individual candidates. Total expenditure on a candidate by the candidate's election agent and the national agent of the candidate's political party could not exceed the expenditure limit for that candidate.
- The amount in column 2 represents expenditure accounted for by the candidate's election agent.
- The amount in column 3 represents expenditure accounted for by the national agent of the candidate's political party which is directly related to the candidate concerned.
- The amount in column 5 represents expenditure on the candidate which was met out of public funds (e.g. use of Oireachtas facilities, etc.). This

amount is included in the total in column 4. The Standards Commission has decided that, where the expenditure limit has been exceeded as a result of expenditure being incurred which was met out of public funds, the matter will not be referred to the Director of Public Prosecutions or to An Garda Síochána (see chapter 7 of report above).

- The legislation provides that minor expenses, not exceeding €126.97 in any one payment, are not election expenses. The Standards Commission did, however, request election agents to provide details of such expenses. The amount shown for minor expenses in column 6 is not included in the figure in column 4 for total expenses.
